

## APPLICATION FOR PERMIT

## TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

OCT 16 1958

Date of filing in State Engineer's Office.....

Returned to applicant for correction.....

Corrected application filed.....

Map filed..... APR 4 1956 Under 16896

The applicant M. D. Close.....

of Las Vegas..... County of Clark.....

State of Nevada..... hereby makes application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is Las Vegas Artesian Basin.....

Name of stream, lake or other source.

2. The amount of water applied for is 0.30..... second-feet.

One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet..... acre-feet.

3. The water to be used for Air-conditioning (heating and cooling).  
Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for.....

(a) Irrigation (state number of acres to be irrigated).....

(b) Stockwater (state number and kinds of animals to be watered).....

(c) Other use (describe fully under "No. 11. Remarks").....

(d) Power:.....

(1) Horsepower developed.....

SET SE<sub>1</sub> Section 35, Township 20 South, Range 61 East, M.D.B.&M., or  
(2) Point of return of water to stream / at a point from which the SE corner of said

section 35 bears South 54°59'00" East a distance of 1152.00 feet.

5. The water is to be diverted from its source at the following point: SE<sub>1</sub> SET Section 35, Township

20 South, Range 61 East M.D.B.&amp;M., or at a point from which the SE

corner of said Section bears South 57°35'00" East a distance of 1173.00  
feet

6. Place of use SET SET Section 35, Township 20 South, Range 61 East M.D.B.&amp;M.

Describe by legal subdivision, if on unsurveyed land it should be so stated.7. Use will begin about Jan. 1 and end about Dec. 31, of each year.  
Month Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans

and specifications of your diversion or storage works.) These wells will be drilled to a

depth of approximately 80 feet and will be cased and cemented to the

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

depth required by the State Engineer's office with perforations in both

wells at the same level.

9. Estimated cost of works..... \$1500.00

10. Estimated time required to construct works..... 30 days

11. Remarks. These wells are to be used as air-conditioning wells. The source well and the return well will both be cased and cemented down in accordance with the requirements of the State Engineer's office. The water will be taken from the source well and piped through the system and returned to the source through the return well at the same level without consuming any of the water. These wells will be used for air-conditioning (heating and cooling) in conjunction with a motel.

M. D. Close....., Applicant.

**FORFEITED**

**APPROVAL OF STATE ENGINEER**

**BILLING NO. 64 Letter**  
**DATE Jan 17, 1959**  
This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the

following limitations and conditions: This permit is issued subject to all existing rights on the source. This source is located within an area designated by the State Engineer pursuant to NRS. 534.030; therefore the State retains the right to regulate the use of the water herein granted at any and all times. It is understood that the use is non-consumptive and is for air-conditioning. It is further understood that the water be returned through a return well to the same aquifer from which it is obtained and the perforations in the return well be so constructed to meet this condition; that the system be a closed system so that no pollution can occur and that if there is faulty construction of the wells or system so as to cause pollution to the ground water, the State Engineer is empowered to cause the wells to be plugged.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed..... 0:30..... cubic feet per second.

Actual construction work shall begin on or before..... August 11, 1959

Proof of commencement of work shall be filed before..... September 11, 1959

Work must be prosecuted with reasonable diligence and be completed on or before..... August 11, 1960

Proof of completion of work shall be filed before..... September 11, 1960

Application of water to beneficial use shall be made on or before..... August 11, 1960

Proof of the application of water to beneficial use shall be filed on or before..... September 11, 1960

Map in support of proof of beneficial use shall be filed on or before.....

Commencement of work filed..... SEP 18 1959

Completion of work filed..... OCT 10 1960

Proof of beneficial use filed..... OCT 10 1960
